Ladies' Home Journal Fashion Sheets for February Now Ready.

LAST WEEK OF THE
Administrator's Shoe Sale

and we wish to make it a record breaker, and our prices seem to be doing it by the way the people have come to us in the last ten days. It was just what they wanted at this time to make their money go as far as possible by having the chance to buy good shoes at cost and less than cost, but we were bound to reduce our stock if low prices will do it. Now this week we will clip the low price again on many lines and try and clean out before inventory on February 1st. Everything goes in the sale and you will blame yourself if you do not profit by it this week.

Perfumes at Half Price This Week

We wish to make a quick reduction in our stock of bottled handkerchief extracts and toilet waters. These goods are all right, though some of the labels are slightly soiled or faded. We therefore offer distinct bargains to those who will buy these perfumes this week. Most of them at less than cost—about half price.

COLLEGE PRESIDENTS.

They Have to Hustle All the Time to Raise Money.

The day has passed when a college president was chosen for his shining example of godly living rather than for his executive ability. The modern president is an administrator rather than a teacher, and, as a rule, he does not appear in the classroom, but keeps office hours like any other man of business. In a great university he comes but rarely into close personal contact with the students. The only occasions upon which he addresses them at length are perhaps at the beginning of the academic year, when the freshmen are welcomed, and at its close, when on commencement day the degrees are conferred. Most of his time and energy must necessarily be devoted to the unending endeavor to produce the wherewithal for the maintenance of the diverse beneficial activities of the university. The head of one of our great institutions of learning, which receives a fairly large annual appropriation from the state, has said:

"For every day of my life I am bound to raise \$1,000 for this institution. If I fall behind at one period I must raise more at another time to maintain the average."

If the average college president were free to make confession he would admit that abstract philosophical issues do not generally give him so much concern as the concrete problem of how he is to make a living for his university.

The productive funds at Harvard university amount to \$21,000,000; Columbia has \$23,000,000; Yale has \$9,500,000 and the University of Pennsylvania \$5,300,000. The profitable investment of these great trust funds, which are always inadequate to the needs of these expanding institutions, requires financial and business acumen of the highest order. The treasurer must be a man who knows the money market as the eighteenth century bursar or steward knew his Bible. The conservation of the resources of the modern university has become the business of a man of highly specialized training, and the ideal life of the academic community comprehends but dimly, if at all, the magnitude of the fiscal transaction incident to the existence and necessary to the welfare of the institution.—Philadelphia Ledger.

THEIR FATHERS.

All Three Were Trimmers, but One Was a Star.

The story, long since familiar, of the little boy whose boast that his father had put a cupola on his house was capped by his playmate, who remarked proudly that his father had just put a mortgage on theirs, is brought to mind by an occurrence which was told the other day by a prominent politician.

The small son of a man who was in politics for revenue only on moving into a new district went out and struck up an acquaintance with two other kids of the same age who lived in the neighborhood. They were interested in the newcomer and began to try him out as to what his parents amounted to anyhow.

"My father is a window trimmer and an awfully big man," said the first kid.

"Ah, that's nothing!" said the second. "My father's a dump trimmer, and he's twice as big as yours."

It was plainly up to the stranger to make good. And he did it with much gusto.

"My father is a politician," he said, "but I heard a man tell him last night that he was the biggest trimmer in this ward."

And it was apparent to any one that the new kid had made a strong impression upon the neighborhood.—New York Herald.

A Long Motorboat Race.

The Motorboat club of Seattle, Wash., will hold one of the longest power boat races ever conducted by an American club next August, when the contest from Juneau, Alaska, to Seattle will be pulled off.

Paying For the Spots.
"I conceived a perfectly dandy scheme for saving my table linen and teaching Jack to be dainty about his carving," said a young married woman. "Every time he gets a spot on the tablecloth I have him cover it with a coin. The larger the spot the larger the coin, and more often than not it takes paper money to cover it all. Then North takes up the money when she clears the table, and we save it up to buy kitchen utensils."—New York Press.

Ten Days For Keeping His Hat On.
The law on lese majesty in Germany was reformed a couple of years ago and deprived of its former severity, so that a tailor's apprentice named Waclov, tried under it at Schiedelmuhi recently for failing to raise his hat when some one called for three cheers for the emperor, was sentenced to only ten days' imprisonment.

A Gift from Santa Claus

Fine dramatic Christmas picture-story told in pleasing vein. No "blood and thunder," but nice in every way.

The Day After

It's really a light New Year's society comedy drama, such as one might see in any of the best play-houses of a great city. It has all the famous Biograph fascination.

Choosing a Husband

A momentous undertaking for any girl. The pretty little sister caused havoc for some men in a way that's most interesting.
